

Right now in the Village of Penn Yan, NY BPL is being tested and the village board is planning to  
Make this a 10-year deal. I know that the technology must move on but at what price. I cannot go to this area right now and operate on a licensed Amateur Radio frequency from 18.068 up thru 30.0 MHz. I know that there is a problem all thru this area. As a licensed amateur I have a right by the FCC to operate and not be interfered with while doing so. This BPL system is a problem, and I do not refer to normal noise floor type noise, I am speaking of band obliterating 20 + noise (near full strength) figures. I urge you to step up and help us to improve this system or pressure them to turn it off till they make alterations to it. Or send your own person up to this area to make a few tests. Thank you.
